

### Introduction

This machine is used to fold and glue boxes after die-cutting. It is widely adopted in paper box manufacturing. This machine has the function of automatic feeding, side gluing, folding, delivering, pressing and counting. All the process is finished during the transportation.

### Major function

This machine can make straight-line box, 2 and 4 fold bottom locked box, side pasted box. It is equipped with three sets of pre-folder, which can pre-fold first and third line. Feeder is equipped with vibrator to make it feeding smoothly. Imported A/C frequency converter makes the machine durable and convenient in use. Two side gluing. Additional spring pressing device bring more pressure when folding E type corrugated board. Imported sensor, coder and counter ensure the precision of box counting. Isochronous controller keep main machine speed fit with pressing speed.

### Specification

Model	HZH650	HZH850	HZH1050	HZH1380	HZH1450
Paper type	Paperboard 250~600g	Paperboard 250~600g E type corrugated board			
Max. Mechanical speed	240m/min	200m/min	200m/min	200m/min	200m/min
Glue type	Water based	Water based	Water based	Water based	Water based
Power standard	3Phs 380V 50Hz	3Phs 380V 50Hz	3Phs 380V 50Hz	3Phs 380V 50Hz	3Phs 380V 50Hz
Main motor power	7.5Kw	7.5Kw	11Kw	11Kw	11Kw
Total power	9.36Kw	10.6Kw	14.1Kw	14.1Kw	14.1Kw
Over all dimension	11x1.3x1.7m	11x1.3x1.7m	14x1.3x1.9m	14x1.3x1.9m	14x1.3x2.1m
